

# Community Dialogue

## **FACT, FICTION, or SOMETHING IN BETWEEN:**

### *Navigating Misinformation in an Election*

#### Speakers Include:

**CJ Oswald**, a doctoral candidate at UVA's Corcoran School of Philosophy

**Jessie Higgins**, Managing Editor at Cville Tomorrow

Voters are constantly being bombarded with information from many sources, all aimed at influencing how they vote or their decision to vote at all. Some of that information conveyed is misleading or even untruthful.

Our speakers will discuss media, its role in elections, what is meant by disinformation and misinformation. Attendees will learn how to identify, make sense of, and stop the spread of misinformation.
